5350 CHEMICAL-RESISTANT URETHANE

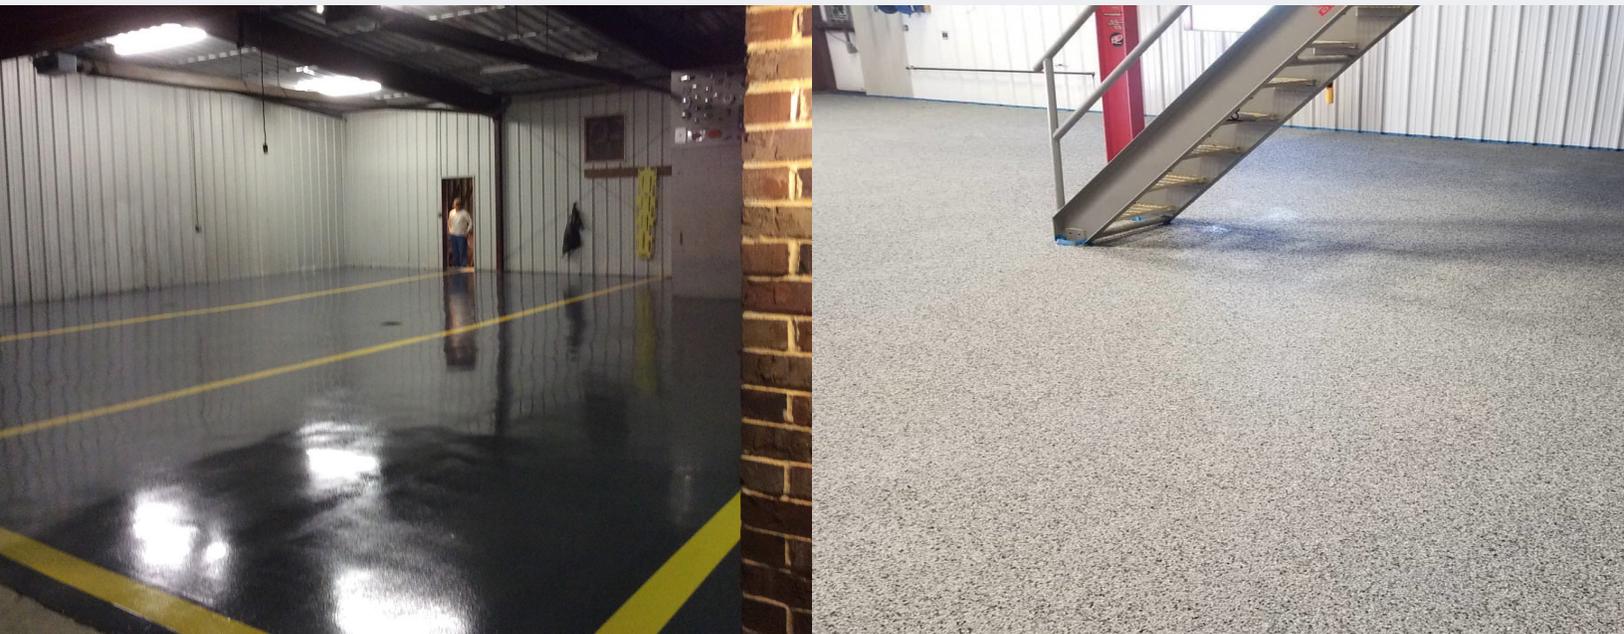

TWO-COMPONENT CHEMICAL-RESISTANT URETHANE FLOOR COATING

5350 Chemical-Resistant Urethane (CRU) Floor Coating is a durable two-component coating that is used for industrial concrete floor coatings. 5350 CRU is formulated to have less than 50g/L VOC. The CRU coating is used in and over industrial floor areas that include aircraft hangars, service bays, petroleum refineries, chemical processing plants, wastewater treatment plants, power utilities, pulp and paper plants, and pharmaceutical facilities.

Versatile's 5350 CRU Floor Coating will provide great protection to concrete floors and concrete floor coatings, offering great chemical resistance, excellent cleanability, and a superior appearance. The 5350 CRU can be used as a smooth, high-quality topcoat over most systems or as a standalone floor coating system for flatwork applications.

FEATURES & ADVANTAGES

- 60% Solids, <50 g/L VOC
- 45-minute pot life
- Medium build
- Skydrol resistant
- High-gloss
- Good resistance to most chemicals
- Non-yellowing
- Will cure at temperatures just above freezing
